

**RSB North Western branch**

## Online talks programme for 2021

### Echinoderms: Dr Mark Woombs

Wednesday 14 April | 19:00

Echinoderms are the spiny-skinned animals of the sea. They include the starfish, brittlestars, featherstars, sea urchins and sea cucumbers. Echinoderms are complex creatures with no heart or blood, they can regenerate their limbs and have tiny feet all over their arms! Register to attend through the [RSB event page](#).

### Future talks

#### Coral Reefs of Australia by Deborah Burn

Tuesday 4 May | 19:00

#### The Birds of Chernobyl by Helen Whitehead

Tuesday 6 July | 19:00

#### African Life by Michael Clapham

Tuesday 7 September | 19:00

#### The Honey Bee by Janet Preece

Tuesday 5 October | 19:00

**All talks are 30-40 minutes long on Zoom and require registration via RSB events page prior to the date.**

Further details can be obtained from Elisabeth Green, RSB North Western branch secretary, via email at [elisabethallouis@hotmail.co.uk](mailto:elisabethallouis@hotmail.co.uk)
