### **Professor Nigel Brown**

Nigel welcomed members of the branch to communicate directly for any reason as a route back to the RSB Council. He reported that RSB staff are working from home due to Covid-19 restrictions and recommended that 6 weeks was the minimum notice for branch events. There will not be any face to face RSB events until April 2021 at the earliest which provides opportunities to invite speakers from outside the region. Nigel challenged the committee to consider branch members who do not/cannot join virtual meetings. Also, how to address equality, diversity and inclusion. RSB will be reviewing the Chartered Biologist professional recognition in the near future.

### **Review of committee roles**

Current committee members and officers are willing to continue to serve. There was no interest from other branch members in joining the committee despite publicity of vacancies. Charlie Brown will take on the Secretary position following a period of shadowing the present secretary.

### **Chairperson's report**

The branch very quickly adapted to COVID-19 changes and managed to organise a number of virtual events including a "meet your committee zoom", the annual AGM, a quiz night and an ethics talk. All events had a good turn out with interactive engagement and huge thanks to the committee for making these possible.

The branch will continue to engage members online with a couple of talks, a possible book club and virtual quiz in the pipeline. With the new regions page, we hope to be able to better connect with our regional members.

Earlier in the year there was a visit to the Royal Vet College in Camden which was jointly organised with the London branch. There was an interesting tour, a visit to the museum of specimens and a fun quiz.
